21th ICIN Conference

20-22 February 2018

Paris, France

www.icin-conference.org

Event Description

Since 1989, the mission of the ICIN series of conferences is to provide an international technical forum for experts from industry and academia to exchange ideas and present results on evolving communications networks and services. The conference program is set up by an independent Technical Programme Committee consisting of experts representing a wide variety of industry, academic, government and enterprise players. The 2017 edition attracted delegates from various countries, firms and functions.

Industry Experts and Decision Makers

Embodying the Full Value Chain

2018 will be the year of coordinated 5G deployment across all EU Member States, targeting early network introduction, and moving towards commercial large-scale introduction by the end of 2020 at the latest. As such, the main theme for ICIN 2018 is “**5G Network Architecture and Solutions: Are We Ready?**” which will allow us to explore the maturity and gaps remaining for end-to-end and large-scale 5G technologies deployment.

The main technical program of ICIN 2018 will be complemented with keynotes, panel, workshops and demo sessions.

Patronage Packages

Four levels of patronage with benefits are provided to promote your company among international experts and conference attendees. The ICIN 2018 Patronage Chair will work with your company to tailor these patronage packages to maximize the value of the patron opportunity to your circumstances. In addition, there is the opportunity to sponsor particular conference events such as the ICIN 2018 Banquet, the Welcome Reception, and the Social Event. As a Patron, your company also becomes eligible to complimentary registrations to the conference, depending on the patronage level.
